DETAILED ACTION

This office action is in response to Applicant's telephone conversation requesting further detailed restriction requirement. This action is restarted as of the mailing of this action.

Applicant's election of Group I (claims 1-53) filed 4/26/04 has been acknowledged.

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention: Any one species or one set of the same species in figures 5A to 21B.

For example:

Species I, figures 5A – 8C

Species II, figures 9A – 9S

Species III, figures 10A – 12

Species IV, figures 13A – 13F

Species V, figures 15A – 15F

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic to all claims.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the

Art Unit: 2826

limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander O Williams whose telephone number is (571) 272 1924. The examiner can normally be reached on M-F 6:30-7:00PM.
